Feedback needs to be given as soon as possible to be effective:

*".....learning is like quick drying paint. You have only a short time to correct the mistake or let it harden into permanent error."*

Rogers J (1989)

## **Introduction**

At Weston Village, we strive to provide all pupils with timely and purposeful feedback that furthers their learning. Teachers are expected to gather feedback and assessments that enable them to adjust their teaching both within and across a sequence of lessons.

### **1. Assessment**

We believe that effective assessment provides information to improve teaching and learning. To do this in our school, we undertake two different but complementary types of assessment: assessment for learning and assessment of learning.

- Assessment for learning (formative assessment) involves the use of assessment in the classroom to raise pupil achievement. We believe that pupils improve most if they understand the aim of their learning, where they are in relation to this aim, and how they can achieve this aim (i.e. to close the gap in their knowledge)
- Assessment of learning (summative assessment) involves judging pupils' performance against the national standards of 2014. Teachers make on-going judgements which culminate in an end of term more formal assessment at which point whole school data analysis is undertaken by the Senior Leadership team [SLT]

Children are given regular feedback on their learning so that they understand what it is that they need to do better to empower them to take action towards improving their own performance.

### **2. Objectives**

- The objectives of assessment in our school are:
- to allow teachers to plan work that accurately reflects the needs of each child, thus moving learning forward
- to enable our children to demonstrate what they know, understand and can do in their work
- to promote a culture of self-improvement and life-long learning, equipping children with the tools they need to improve
- to provide regular information for parents that enables them to support their child's learning
- to provide the headteacher and governors with information that allows them to make judgements about the effectiveness of the school

### **3. Planning for assessment**

- Teachers use the Programmes of Study outlined in the National Curriculum 2014 as well as the DfE assessment guidance to help identify each child's achievements
- Teachers plan lessons with clear learning objectives based upon the teacher's detailed knowledge of each child. We strive to ensure all tasks set are appropriate to each child's ability and promote inclusion for all groups including SEND and PP.
- Teachers share the lesson's learning objective with the children which is presented in the form of a question. This will form the basis of the success criteria against which the work will be judged.
- Teachers use a range of strategies including; asking probing questions, quick application tasks, scrutiny of written work, right through to formal tests, to find out what pupils know, what they understand, and to reveal their misconceptions.
- Teachers note individuals who do not achieve at the expected level for the lesson. They use this information to plan interventions and next steps.

#### **4. Target-setting & Reporting to Parents**

Targets in the core areas are set at the start of an academic year and reviewed three times a year in pupil progress meetings. Progress towards these targets are communicated to parents through termly parent consultations, which serve different purposes, namely:

- Autumn – settling in and pastoral care, though core subject books will also be shared
- Spring – academic progress and attainment; the role of the parent in supporting learning. Core and foundation subject books will be shared
- Summer – parents are sent a written report and invited to discuss end of year achievements.

An open door policy is in place at Weston Village and parents are encouraged to meet with the class teacher if they have any concerns about any aspect of their child's schooling at any point in the year.

Progress of pupils is reviewed formally once a term, or more frequently for vulnerable groups and if monitoring deems it appropriate.

#### **5. Feedback and Marking**

##### **5.1 Feedback**

Feedback to pupils is essential, as it tells them what they have done well, and what they need to do to further improve. Feedback should help children to become reflective learners and to close the gap between current and desired performance. We have an agreed code for marking for each key stage, and this ensures that marking is consistent across the school.

At Weston Village, we fundamentally believe that the core principles of feedback and marking are:

- To further children's learning
- To be accessible to all students, therefore written comments should only be used once children can read and fully comprehend them
- To be delivered closest to the point of action in order to have the greatest impact (verbal feedback in lessons is preferred over written comments at a later date)
- Teachers are not expected to evidence verbal feedback or 'mark' books purely for external verification, however SLT do expect to see evidence that feedback has been given in the editing and drafting process
- All pupils' work should be reviewed by teachers at the earliest possible opportunity so that improvements will positively impact future work. When work is reviewed, it should be acknowledged in books.
- When written feedback is given, we relate this to the question posed in the learning objective
- In maths, the teacher may take the class through the answers as part of the teaching process. It will always be necessary for the teacher to review the children's achievement in order to plan appropriate next steps.
- Where possible, work should be marked alongside the child, for example, through writing conferences, during class monitoring and as part of guided work sessions

## 5.2 General Marking Objectives

Teachers need to be clear and concise when explaining the learning objective so that the success criteria is fully understood by pupils.

- The learning objective will be displayed at the start of a piece of work and will be presented as a question
- Marking will be consistent by marking to the success criteria set for the task
- Marking must focus on improvement not 'correction'
- Exhaustive indication of every mistake is not appropriate, particularly for SEND pupils. Marking should be sensitive to the abilities of the child
- Children must be encouraged to acknowledge marking of all forms, read written comments and respond in writing or verbally
- The children will benefit from marking if they understand the marking system. A simple and consistent marking scheme will be used throughout the school
- Work in core subjects must be quality marked in line with the Marking Code
- Work in foundation subjects may be marked with a lighter touch, however it is vital teachers still review work in order to assess against the learning objective. Evidence of this is expected to be seen in books and a written comment at the end of a sequence of learning.
- Codes will be used to show if a child has completed work independently (I) with help from a teaching assistant (TA), with help from a teacher (T) or if they have had light touch guidance (G)

## 5.3 Marking Strategies

A variety of marking strategies may be used including;

- **Focused marking** by the teacher concentrates entirely on the success criteria of the task. The emphasis should be on success against the criteria and the improvement needed so that gaps are closed between achievement and potential achievement.
- **Self-marking** of closed tasks should take place if appropriate. Children may mark their own or each other's work against an answer key e.g. mental maths, arithmetic or tables tests. Children should also be taught explicitly to self-evaluate, identifying their own successes against learning objectives and looking for points for improvement. Where appropriate, they should check and improve their rough drafts themselves, or through 'talk partners' prior to writing out a final draft.
- **Peer-marking** where pupils are trained to evaluate a partner's work, identifying successes against learning objectives and looking for points for improvement. Teachers need to acknowledge where work has been peer-marked.

## 5.4 Whole Class marking of extended writing in English

At least one extended piece of writing must be produced in English per week. It is expected that children will receive clear and purposeful feedback for this work, via whole class feedback (see appendix) in addition to any relevant basic marking, that improves their written content and composition. This will usually be related to the objective or success

criteria. This may lead to children rewriting up to a paragraph (depending on their age and ability). Children are given an appropriate amount of time to do this at the start of the next lesson.

### 5.5 Frequency of marking

- Where possible feedback should take place before the next lesson
- Feedback and marking can take place during the lesson – providing immediate feedback
- ‘Distance’ marking should be returned before the next session of that subject
- Long-term projects should be marked on completion
- Creative and expressive writing must be re-read by the pupil first, with any errors or improvements made. When possible, areas of weakness or areas to be amended, should be indicated by visual codes. If necessary, constructive written comments can be included at the bottom of work.
- Comments should match the success criteria. Additional comments may focus on: quality of content, quality of expression, technical accuracy, punctuation, presentation and effort, as per the Secrets of Success.

### 5.6 Spellings

- Common practice should be that pupils have the opportunity to use dictionaries to identify, check and self-correct own spelling errors.
- The child ideally should identify incorrect spellings. Blanket marking of errors is not recommended for some children as it can be demoralising. Teachers will focus on the correct spellings of high frequency and those that include spelling rules appropriate for that year group. Correction of spelling should not inhibit pupils’ experiments with more adventurous vocabulary.

### 5.7 Marking of Maths Work

- Maths work must be marked to show whether each element/answer is correct. Incorrect answers should be shown by a cross. A comment may also be added which tells the child how well he/she has met the success criteria. The teacher may model how to address errors which have arisen or give children further questions to support additional practice.
- Children are expected to correct any errors ahead of the next lesson.
- Where appropriate, the children’s learning needs to be enhanced or consolidated through next step marking.

E.g.

- You understood this very well. Can you write a question for someone else that they could solve using this strategy?
- Be careful when you multiply by 100. How many columns do you move each digit? Try these:  $23 \times 100 =$  ,  $203 \times 100 =$  ,  $490 \times 100 =$
- You understood those questions. Now try these tricky ones:  
 $17 + \underline{\quad} = 100$ ,  $\underline{\quad} + 61 = 100$
- Do you think you found all the possibilities? Explain how you know.

## **5.8 Reward Systems**

Rewards must be used for good effort, not only excellent work. We use a range of rewards such as

- Praise
- Sharing work
- Dojos

## **5.9 Marking methods – General principles**

- The date and title is recorded by the children (where possible and appropriate) and the learning objective will normally be recorded or referred to where appropriate.
- Teachers will mark in green pen
- Purple pens should be used when pupils self-assess their own work and respond to feedback in dedicated response time, where the teacher deems it appropriate
- Following positive comments, next steps should be identified, if appropriate

## **6. Presentation – General principles**

- The date is written at the top right of the page. All children from Year 1 to Year 6 write the short date in maths books e.g. 27.2.2022. By the summer term of Y1, or earlier if appropriate, all children are expected to write the long date in English books and other books e.g. Monday 27th February 2022.
- All work, with the exception of Power Maths book tasks, should have a title which is written as a question about the objective. The title is centred at the top of the work. From Y2, the vast majority of children are expected to write titles on all their work.
- The date and title should consistently be set out as such: DUMTUMS (date, underline, miss a line, title, underline, miss a line, start).
- A ruler must be used for all underlining.
- Where children are writing or drawing in pencil, it must be sharpened prior to writing or drawing.
- When children are deemed to be consistently joining their writing with uniformity of sizing, spacing and accurate letter formation, they will be awarded a 'pen licence' and may complete their writing in black ink. Typically, this happens at some point during Year 2 or early on in Year 3. Teachers in Year 3 must prioritise the presentation and handwriting of children who are yet to be awarded a pen licence.
- School will issue children will black Bic ballpoint pens or children may bring their own identical or very similar pens. Teachers will make the final decision on all writing implements.

## 7. Monitoring/Evaluation

The implementation of the marking policy will be monitored through:

- Work scrutiny/book looks (can we see evidence that the marking policy is utilised correctly and consistently?)
- Teaching and learning observations (are children encouraged to 'self-assess' or 'mark' their work in relation to the success criteria/learning objective?)
- Pupil voice (can children talk about what they are doing well and how they can improve?)

This will be undertaken by

- Staff through peer assessment
- SLT and subject leaders
- School Improvement Partners and Ofsted.

A selection of books from each class and subject will be scrutinised at regular intervals throughout the school year.

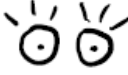

## 8. Summary of Feedback

Type	What it looks like	Evidence (for observers)
<b>Immediate</b>	<ul style="list-style-type: none"> <li>• Takes place in lessons with individuals or small groups</li> <li>• Often given verbally to pupils for immediate action</li> <li>• May involve use of a teaching assistant to provide support or further challenge</li> <li>• May re-direct the focus of teaching or the task</li> <li>• May include highlighting/annotations according to the marking code.</li> </ul>	<ul style="list-style-type: none"> <li>• Lesson observations/learning walks</li> <li>• Some evidence of annotations or use of marking code/highlighting</li> </ul>
<b>Summary</b>	<ul style="list-style-type: none"> <li>• Takes place at the end of a lesson or activity</li> <li>• Often involves whole groups or classes</li> <li>• Provides an opportunity for evaluation of learning in the lesson</li> <li>• May take form of self- or peer- assessment against an agreed set of criteria</li> <li>• In some cases, may guide a teacher's further use of review feedback, focusing on areas of need</li> </ul>	<ul style="list-style-type: none"> <li>• Lesson observations/learning walks</li> <li>• Some evidence of self- and peer-assessment</li> <li>• May be reflected in selected focus review feedback (marking)</li> </ul>
<b>Review</b>	<ul style="list-style-type: none"> <li>• Takes place away from the point of teaching</li> <li>• May involve written comments/annotations for pupils to read / respond to</li> <li>• Provides teachers with opportunities for assessment of understanding</li> <li>• Leads to adaptation of future lessons through planning, grouping or adaptation of tasks</li> <li>• May lead to targets being set for pupils' future attention, or immediate action</li> </ul>	<ul style="list-style-type: none"> <li>• Acknowledgement of work completed</li> <li>• Written comments and appropriate responses/action</li> <li>• Adaptations to teaching sequences tasks when compared to planning</li> <li>• Use of annotations to indicate future groupings</li> </ul>

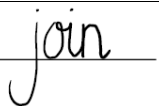

## Appendix 1

### Marking Code for EYFS and Year One

	Full stops		Finger spaces		Upper/lower case letters
	Letter formation		Listen for sounds		Punctuation
	Pencil grip		Great ideas		Look carefully
	Handwriting (ascenders/descenders)	<b>I</b>	Capital I	<b>Sp</b>	Spelling mistake

### Marking Code for Year Two and Year Three (as above plus the following)

<b>A-Z</b>	Dictionary	//	Paragraphs		Proof reading
<b>O</b>	Punctuation (missing)		Thesaurus		Connectives
			Join handwriting		

## Marking Code for Years Four, Five and Six

A-Z	Dictionary		Proof reading		Connectives
O	Punctuation (missing)	/	New line	//	New paragraph
—	Capital or lower case letter used incorrectly		Thesaurus	h	Wrong homophone
?	Lacks meaning, including missing words	t	Incorrect tense	<i>join</i>	Join handwriting
